

Global Finance Names The Safest Banks By Country 2018

NEW YORK, September 17, 2018 — *Global Finance* has named the Safest Banks in 106 countries around the world as part of an exclusive survey to be published in the November 2018 issue.

In addition to the Safest Banks by Country, the full report also includes the following: World's 50 Safest Banks, World's 50 Safest Commercial Banks, 50 Safest Banks in Emerging Markets, Safest Islamic Financial Institutions in the GCC, and Safest Banks by Region (Africa, Asia, Australasia, Central & Eastern Europe, Latin America & The Caribbean, the Middle East, North America and Western Europe).

Banks were selected through an evaluation of long-term foreign currency ratings—from Moody's, Standard & Poor's and Fitch—and the total assets of the 1000 largest banks worldwide.

"This country-by-country ranking provides insight into which are the safest banks in individual markets around the world. As companies become ever more global and undertake transactions across countries, they need to know which banks provide the most stability and security in each nation. Despite a push for the harmonization of financial rules, the many remaining differences in financial regimes present challenges to corporate financial officers. We provide this ranking to help them find the safest banks in all of the markets in which they do business," says *Global Finance* publisher and editorial director Joseph D. Giarraputo.
